

Diamond Thunder® – Bring the Sound, Get the Edge

Exclusive Rattle Spinner Blade and Spoons Produced by Lakeland

- Eight sided brass chamber with solid shaped beads permanently encased for sound enhancement.
- Multi-directional sound chamber allows rattle to be generated by ease of movement.
- Unique diamond shaped rattle chamber.
- Distinguish your fishing tackle with Lakeland produced Diamond Thunder Sound.
- Innovative fishing tackle alternative.
- High-performance rattle spinner blade and spoons.
- Enhanced sound designed to catch more fish.

Diamond Thunder Spinner Blades, Trolling Flutter Spoons, and Casting Spoons are designed for enhanced sound to travel further underwater. No other spinner or spoon offers such an advantage to attracting fish. As the spinner or spoon moves, the brass beads collide on all eight sides of the diamond shaped chamber producing an enhanced rattle sound. Diamond Thunder spinner blade and spoons can easily enhance your response in providing new innovative fishing tackle alternatives and is available in six premium plate finishes and eight transparent paint colors. Lakeland produced Diamond Thunder rattle sound is available in Willowleaf Spinner Blade sizes 4-1/2 & 5, Trolling Flutter Spoon sizes N2 & N3, and Casting Spoon sizes D4, D5 & D6.

At Lakeland, manufacturing the finest quality spinner blades, trolling flutter spoons and casting spoons for the fishing tackle industry is our only business. Lakeland is one of the largest manufacturers and continues to offer more choices of size, pattern, shape, finish, paint, and custom application than any other lure component manufacturer.

Lakeland customers expect the best service in the industry and we exceed their expectations with continued innovation and service. Contact Lakeland to meet your fishing tackle component needs.
