Great Fishing with Lakeland Components
More Finishes • More Sizes • More Choices

Glows up to 24 Hours with Lakeland's Extended Glow-In-The-Dark

Lakeland continues to be innovative in developing new patterns and finishes. Now our blades and spoons are available with Lakeland's New Extended Glow-In-The-Dark paint. Glow times for these paints range from 3-24 hours from a single charge. They can be easily charged/ recharged in 2-3 minutes of normal daylight or from a bright light source. Six exciting colors are available to make your fishing components unique.

At Lakeland, manufacturing the finest quality spinner blades, casting spoons and trolling flutter spoons for the fishing tackle industry is our only business. Lakeland is one of the largest manufacturers and continues to offer more choices of size, pattern, shape, finish, paint, and custom application than any other lure component manufacturer.

Lakeland customers expect the best service in the industry and we exceed their expectations with continued innovation and service. Be sure to contact Lakeland to meet your fishing tackle component needs.
