

## ***Leading Edge Finishes, Colors and Patterns for Quality Fishing Tackle Components***

Lakeland has been known for producing quality fishing tackle components with paint finishes matching the tradition of excellence. Lakeland provides painting on all blades, spoons, brass lure bodies, beads and fly tying components. Lakeland's wide selection of paints include fluorescents, transparents, enamel, extended glow-in-the-dark, glitter (crystalina), and holographic combinations. Our paint finishing can include pad printing of logos and design patterns to meet your unique requirements. Innovation of new paint techniques and finishes provide our customers with the best quality components available.

At Lakeland, manufacturing the finest quality spinner blades, casting spoons and trolling flutter spoons for the fishing tackle industry is our only business. Lakeland is one of the largest manufacturers and continues to offer more choices of size, pattern, shape, finish, paint, and custom application than any other lure component manufacturer.

Lakeland customers expect the best service in the industry and we exceed their expectations with continued innovation and service. Contact Lakeland to meet your fishing tackle component finish, color and pattern needs.
