

Enhanced Patterns for the Finest Quality Spinner Blades and Spoons

Lakeland manufactures the finest quality spinner blades, casting spoons and trolling flutter spoons for the fishing tackle industry. Lakeland continues to offer more choices of size, pattern, shape, finish, paint and custom application than any other lure component manufacturer. Our blades and spoons are available with seven patterns in the base material including plain, hammered, fluted, diamond, hex, scale and rib. Manufacturing a wide range of patterns and finishes is our specialty. Imprinting, painting, pad printing, and packaging make Lakeland a complete source for your unique requirements.

Lakeland provides painting on all seven patterns of blades and spoons, brass lure bodies, beads and fly tying components. Lakeland's wide selection of paints include fluorescents, transparents, enamel, extended glow-in-the-dark, glitter (crystalina), and holographic paint combinations. Our paint finishing can include pad printing of logos and design patterns to meet your unique requirements. Innovation of new patterns and finishes provide our customers with the best quality components available.

Lakeland produced spinner blades and spoons are complimented with a wide variety of other fishing tackle components including an extensive selection of brass lure bodies, brass beads and brass worm weights.

Lakeland customers expect the best service in the industry and we exceed their expectations with continued innovation and service. Contact Lakeland to meet your fishing tackle component needs.
