

New Half-Pattern Trolling Spoons

Premium Quality Trolling Spoons Offer Brilliant Flash for Added Fish Attraction

Lakeland Incorporated has a commitment toward the innovation of offering new fishing tackle components. The premium quality trolling spoons now offer two additional alternatives of Half-Rib and Half-Diamond patterns. The half patterns create a unique and highly reflective finish, adding more value to your fishing tackle components. This unique spoon pattern design will enhance flash attraction, and added visibility in the water.

Exclusive Lakeland Features:

- Brass Base Material
- Multi-Patterns: Half-Rib pattern, Half-Diamond pattern
- Premium Plate Finishes
- Trolling Spoon sizes 3¼", 3⅞", 4¾"

Lakeland's leading edge premium plate finishes of bright nickel, copper, 24 karat gold, black/nickel, genuine silver, nickel/gold and chrome are easily complimented with our paint finishes. This special plating process creates a highly reflective finish, and produces a brilliant flash for added fish attraction. Lakeland's wide selection of paints include fluorescents, transparents, enamel, extended glow-in-the-dark, glitter (crystalina) and holographic combinations. Freshwater paint pattern colors, innovative air-brushed techniques, along with our custom capabilities provide our customers with the best quality spoons available and will add more value to your finished component.

At Lakeland, manufacturing the finest quality spinner blades, casting spoons and trolling spoons for the fishing tackle industry is our only business. Lakeland is one of the largest manufacturers and continues to offer more choices of size, pattern, shape, finish, paint, and custom application than any other lure component manufacturer.

Lakeland customers expect the best service in the industry and we exceed their expectations with a commitment of continued innovation. Be sure to contact Lakeland to meet your fishing tackle component needs.
