New Hex, Prism, and Rib Pattern Magnum Spinner Blades ***Premium Quality Musky & Pike Lure Spinner Blades***

Lakeland Incorporated manufactures the finest quality Musky & Pike spinner blades for the fishing tackle industry. The newest additions to Lakeland's successful Musky & Pike selection are the Magnum Hex, Prism, and Rib patterns. Adding Lakeland Musky & Pike Lure spinner blades can easily enhance your existing tackle line.

Lakeland's Musky & Pike spinner blades are available in two sizes (9, 10) and five patterns of plain, hammered, hex, prism, rib patterns. The spinner blades are available in .025 gauge base material, and 6 premium plate finishes of bright nickel, 24 karat gold, silver & lacquer, black/nickel & lacquer, copper & lacquer, 50/50 nickel/gold. This special plating process creates a highly reflective finish, and produces a brilliant flash for added fish attraction. Lakeland's wide selection of paints include fluorescents, transparents, enamel, extended glow-in-the-dark, glitter (crystalina) and holographic combinations. Freshwater paint pattern colors, innovative air-brushed techniques, along with our custom capabilities provide our customers with the best quality spinner blades available and will add more value to your finished component.

At Lakeland, manufacturing the finest quality spinner blades, casting spoons and trolling flutter spoons for the fishing tackle industry is our only business. Lakeland is one of the largest manufacturers and continues to offer more choices of size, pattern, shape, finish, paint, and custom application than any other lure component manufacturer.

Lakeland customers expect the best service in the industry and we exceed their expectations with a commitment of continued innovation. Be sure to contact Lakeland to meet your fishing tackle component needs.
