Lakeland has all the components needed to create Musky & Pike lure rigs. All Lakeland Musky & Pike lure components are constructed of only the highest quality materials and standards. Each component is made for maximum fish attraction and able to with-stand the demands of musky and pike fishing. Adding Lakeland Musky & Pike Lure components can easily enhance your existing tackle line.

Lakeland's Musky & Pike spinner blades are available in a variety of styles in Colorado, Colorado Deep Cup, Willowleaf, Indiana, Magnum Willow, Magnum Indiana, Magnum, French, and In-line available in heavy gauge .025 or .040. Extensive pattern selection (plain, fluted, diamond, hex, scale, rib) and 6 premium plate finishes (bright nickel, 24 karat gold, silver & lacquer, black/nickel & lacquer, copper & lacquer, 50/50 nickel/gold) for fishing tackle alternatives. Lakeland's special plating process and unique patterns create a highly reflective finish, and produces a brilliant flash for added fish attraction.

At Lakeland, manufacturing the finest quality spinner blades, casting spoons and trolling flutter spoons for the fishing tackle industry is our only business. Lakeland is one of the largest manufacturers and continues to offer more choices of size, pattern, shape, finish, paint, and custom application than any other lure component manufacturer.

Lakeland customers expect the best service in the industry and we exceed their expectations with continued innovation and service. Be sure to contact Lakeland to meet your fishing tackle component needs.
