

DIAMOND THUNDER[®]

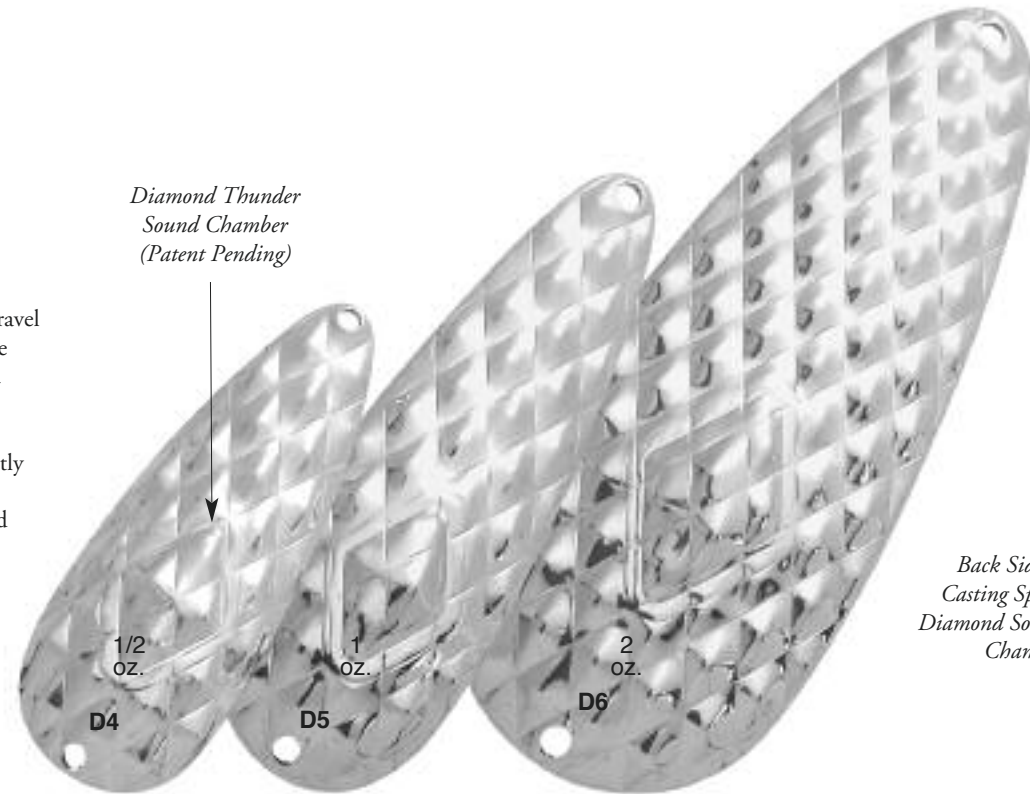

CASTING SPOON

Spoon Specifications See Page 238

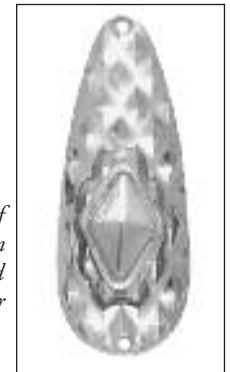

DIAMOND PATTERN BRASS TROPHY LINE

Diamond Thunder Casting Spoons are designed for sound to travel further underwater. As the spoon moves, the brass beads collide on all eight sides of the diamond shaped chamber producing an enhanced rattle sound.

- Eight sided brass chamber with solid shaped beads permanently encased for sound enhancement.
- Multi-directional sound chamber allows rattle to be generated by ease of movement.
